Become a Green Impact Team

Green Impact is a staff competition to engage different teams in sustainability. There is an online workbook with different actions for team to complete, split into different levels which get a little harder as they progress. The workbook is bespoke to Newcastle Hospitals, and is relevant for both clinical and non-clinical areas. [#LetsBeSustainable](#)

**is leading the Green Impact
Team for this area.**

If you would like to be involved in our Green Impact Team please write your name below:
